

## **AGI/Klearfold Europe supports SOS Kinderdorf**

**AGI Klearfold Europe, specialist for packaging design, creates toy theatres for the SOS Kinderdorf**

This year, the SOS Kinderdorf pursued two objectives with its campaign „Wir Sonnenblumenkinder“: Firstly, to create a playful approach to art/culture and life, secondly, to make people aware about the situation of the children in the SOS Kinderdorf. AGI/Klearfold Europe has supported this charity project with the manufacture of 6000 toy theatres.

On the one hand, the SOS Kinderdörfer will be provided with the printed toy theatres, on the other hand the theatres will be sent out to kindergardens all over Austria. The mailing not only includes the toy theatres but also information for kindergarden teachers and parents. Moreover, the theatres are for sale at the SOS Kinderdorf (donation).

Besides AGI/Klearfold Europe additional contributors to this project were the Galli Theater, the DschungelWien Theater as well as the improvisation-theatre group „Meet the Monster“.
